If you need to get a car taken away definitely

Give him a call! Put in for a quote Tuesday afternoon and if it wasn't for me being at work he would've gotten it that night. Told me he started at 9am by 9:15 he called that he was on his way. Got here had the exact cash we talked about, hooked it up and took it away no issue. Super nice guy if you need a car taken away give him your business!

I called Kevin and he arrived within about 30 minutes. He was professional, pleasant and fair in what what he offered to remove the car from my property. Would definitely recommend!

Prompt and friendly, great service towing our junked car and gave us a good price for it. There was brief confusion from more than one person having arranged the pickup, one message and it was resolved in moments. Great work, thanks!
